Raw Cashew Nut (RCN) Supply Capability Statement

Traceable raw cashew nuts from Côte d'Ivoire's smallholder farmers

Who we are

International Commodities LLC is the U.S. commercial partner for a federation of smallholder farmer cooperatives in Côte d'Ivoire, the world's largest producer of raw cashew nuts. We handle buyer relationships, contracts and payments, and the cashews ship directly from the Ivorian port to you. Our managing partner brings more than 25 years of experience in the Ivorian commodity trade.

What we offer

Product	Raw cashew nuts (in shell), Côte d'Ivoire origin, 2027 crop
Volume	1,000 to 2,000 MT per buyer, starting with a trial container. Buyers who reach out early get priority allocation.
Season	Ivorian harvest runs from early spring into summer, with first shipments in April 2027
Traceability	Sourced from GPS-mapped member farms. Farm-level data is shared after a mutual NDA.
Pricing	Set at the coming harvest, based on the market and the lot's quality
Quality	Lots matched to your specs (KOR, nut count, moisture), confirmed by independent inspection (SGS or equivalent) at loading
Payment	Payment before loading, with no credit terms. If you need financing, we can introduce a funded job-work option where a third-party funder buys FOB and pays before loading.
Shipping terms	FOB Abidjan or San Pedro, shipped directly to the buyer

How we work with buyers

1. An introductory call to understand your specs, volumes and timing.
2. A mutual NDA with non-circumvention.
3. Our supplier dossier, traceability data and samples.
4. Your Letter of Intent to International Commodities by February 7, 2027 to secure an allocation for April 2027 shipment.
5. A fixed supply agreement once harvest pricing is set, starting with a trial container, plus an open invitation to visit the farms in Côte d'Ivoire.

Why buyers work with us

You get a shorter supply chain, direct access to the world's largest cashew origin, and nuts you can trace back to the farm. You also get a partner that's invested in the farmers' long-term success, which makes for more reliable supply season after season.

Arlene Summers | Managing Partner, International Commodities LLC

Exporter identity and identifying details are shared once a mutual NDA with non-circumvention is in place.
