Raw Cocoa Supply Capacity Statement

Certified, traceable cocoa beans straight from a licensed Ivorian exporter

Who we are

International Commodities LLC is the U.S. commercial partner for a licensed federation of smallholder cocoa cooperatives in Côte d'Ivoire's western cocoa belt. We handle buyer relationships, contracts and payments, and the cocoa ships directly from the Ivorian port to you. Our managing partner brings more than 25 years of experience in the Ivorian commodity trade.

What we offer

Product	Raw cocoa beans, Côte d'Ivoire origin
Exporter status	Licensed by Côte d'Ivoire's Coffee-Cocoa Council to export cocoa and coffee
Certification	Rainforest Alliance, Fairtrade and organic certified; non-GMO
Traceability	Thousands of GPS-mapped hectares, with farm-level data shared after a mutual NDA
Annual volume	Estimated 5,800 to 7,800 MT of cocoa across the main crop (Oct to Mar) and mid crop (May to Aug)
Allocations	Volume allocated per buyer, starting with a trial container. The exporter doesn't commit its whole crop to any one company
Quality	Grade, bean count, moisture and cut test confirmed per contract
Farmer programs	Structured farmer-support and community programs, including child labor monitoring and remediation
Shipping terms	FOB Abidjan or San Pedro, shipped directly to the buyer

How we work with buyers

1. An introductory call to understand your specs, volumes and timing.
2. A mutual NDA with non-circumvention.
3. Our full supplier dossier: license, certificates and traceability data.
4. Samples, followed by a trial container.
5. A seasonal supply agreement, with an open invitation to visit the farms in Côte d'Ivoire.

Why buyers work with us

You get a shorter supply chain, direct access to a certified origin, and cocoa you can trace back to the farm. You also get a partner that's invested in the farmers' long-term success, which makes for more reliable supply season after season.

Arlene Summers | Managing Partner, International Commodities LLC

Exporter identity and identifying details are shared once a mutual NDA with non-circumvention is in place.
