International Commodities LLC
Tampa, Florida, USA

Green Robusta Coffee Capacity Statement

International Commodities LLC (IC) supplies green Robusta coffee from a licensed Ivorian exporter and farmer cooperative network. IC is the U.S. counterpart for these exports, so every contract, LOI, and payment goes through IC. We're looking for buyers who want a steady, traceable origin and are ready to start with as little as one container.

PRODUCT AND SUPPLY

Product	Green Robusta coffee beans, Côte d'Ivoire origin
Yearly production	3,200 MT
Minimum order	1 container (19 MT)
Packaging	Confirmed per contract
Moisture	13% maximum
Grade and screen size	Export grade, confirmed per contract and pre-shipment sample
Incoterms	FOB Abidjan or San Pédro, Côte d'Ivoire
Shipment	Direct from the Ivorian port to the buyer's destination
Season	2026–2027 export campaign, licensed exporter

WHY BUY THROUGH IC

- **Licensed exporter:** coffee export license in place for the 2026–2027 campaign.
- **Traceable farms:** member farms are GPS-mapped, which supports EUDR traceability.
- **Farmer-first sourcing:** the cooperative reinvests in its farming communities, a story buyers can share with their own customers.
- **Start small, grow over time:** one container is enough to begin, and volume can increase as the relationship builds.

BUYER REQUIREMENTS

- **LOI and NCNDA:** both signed with International Commodities LLC.
- **Bank guarantee required by Côte d'Ivoire's Coffee-Cocoa Council:** 200 million CFA, issued by the buyer's bank. It's a guarantee, not a cash payment.
- **Payment terms:** no credit sales. Letter of credit or confirmed payment before loading.
- **Inspection:** SGS or equivalent at loading is welcome. Samples available on request.
- **Certification details:** shared after the NCNDA is signed.
